HELAVIA® LASER and SILAVIA LASER

Quality, indelible and tamper-proof marking

SES-STERLING
www.ses-sterling.com

With our HELAVIA® LASER and SILAVIA LASER marker sleeves, we offer a high-quality, indelible and tamper-proof/forgery-proof identification solution using LASER engraving technology.

Marker sleeves can be fully customised, with the option of different types of engraving (alphanumeric or graphic), the direction of printing and the number of sides and lines. They are available in 7 colours and 5 standard lengths.

These rubber sleeves offer the possibility of simultaneously marking, insulating and protecting cable ends.

HELAVIA® LASER

HELAVIA® LASER rubber marker sleeves provide attractive, space-saving identification thanks to their thin wall, which makes them integral with the cable.

SILAVIA LASER

SILAVIA silicone rubber marker sleeves are halogen-free, highly elastic and resistant to high temperatures. They are ideal for outdoor applications.

Standard colours

001	020	003	004	006	007	013
white	blue	green	yellow	brown	red	grey

Length of the marker sleeves (other lengths on request)

All around the cable

WORKING WITH SES-STERLING

We at SES-STERLING take pride in the fact that since our family enterprise was created in 1928, we have managed to grow it into an internationally renowned cable accessories manufacturer that can guarantee fast worldwide delivery to its clients. We're considered as a forerunner in the transformation of raw materials into electrical wiring accessories mainly thanks to the fact that we manage and control the whole production process from A to Z. We can therefore guarantee you top quality and innovative products that are 100% "Made in France".

A strong research culture makes sure the cable protection, marking and fixing products manufactured by SES-STERLING are manufactured to fulfil the needs of all our customers. With more than 26000 product references our catalogue will be able to provide trusted products of any type our clients are seeking offering the best balance between price and quality, without having to compromise on creativity. What you really need is a continuous availability, fast delivery, sufficient stocks and efficient distribution. Thanks to these elements we are able to offer first-class responsiveness, troubleshooting and support for our partners.

Our specialised team of research and development engineers work all year round to be sure that the most effective raw material mixes are used in our products so that the end user will sleep soundly whenever completing a project. All products are constantly adapted for ease of use in the field.

The SES STERLING commercial and technical teams aim to be as close as possible to our all important clients with offices in Switzerland, Belgium, Germany and the United Kingdom. And thanks to our extensive partner network in 50 countries around the world we can offer our quality products to you in the time scale required. Our teams are always ready to listen to your feedback, suggestions and questions. Local contact is the key factor, not only can we respond to your needs, but we aim to fulfil them whenever they arise.
